**XOOM Energy to Become Reliable Partner for New Jersey Businesses**

**Charlotte, NC, August 1, 2012:** With XOOM Energy, businesses have found an energy provider that understands their needs: To keep a business up and running without harming the bottom line. And XOOM Energy is proud to extend its natural gas service plans to the small and medium businesses in the Garden State.

“Business owners want an energy partner they can trust so they can focus on the making their business a success,” Tom Ulry, CEO of XOOM Energy said. “And XOOM Energy has a proven track record to not only be reliable, but to treat our customers with the excellent care they deserve.”

New Jersey is a deregulated energy market – one that allows customers to choose their energy service provider instead of only purchasing through the local utility company. And XOOM Energy is in a prime position to purchase energy on its customers’ behalf and have it delivered to them – all without interruption in service.

Small and medium businesses that are served by New Jersey Natural Gas, which covers parts of Monmouth, Ocean and Burlington counties, are eligible to sign up with XOOM Energy. The company features two plans: a fixed rate plan to lock in prices long term and a variable rate plan that takes advantage of market-based prices.

“Like the small businesses in this area – the convenience stores, the laundry facilities and florist shops, XOOM Energy’s plans serve a variety of needs,” Mr. Ulry said. “We can accommodate businesses with a strict monthly budget or those that can withstand minor adjustments. But all of our plans have value.”

Business owners can learn more about deregulation, the plan that fits their lifestyle and even sign up for service at XOOM Energy’s website [xoomenergy.com](http://xoomenergy.com).

**About XOOM Energy, LLC**
